Charge Nurses

(This post) Staff Nurse

Health Care Support Workers

5. ROLE OF DEPARTMENT

To provide a high quality, safe and supportive environment in order to care for severely ill patients and to meet their identified physical, psycho-social and mental health needs.

6. KEY RESULT AREAS

1. To assess patients, plan their care, implement and evaluate programmes of care and consult / involve patient / carers at all stages of the patients' journey to ensure patients receive a high standard of nursing care.
2. To organise own workload and workload of others within the team to ensure the patients care needs are met and systems of teamwork are maintained.
3. To lead the nursing team, in the absence of the Charge Nurse / Team Manager and act as a source of advice to ensure smooth organisation so patients and their relatives receive a high standard of prescribed care.
4. To support, guide and direct junior members of the team to appropriately provide holistic nursing care for patients ensuring robust risk assessment.
5. To contribute to the arrangements for patient admissions and discharges so that patients are admitted according to the clinical area procedures and discharges are fully planned.
6. To implement and maintain, as part of the multidisciplinary team, policies, procedures, standards and protocols of the clinical area to ensure adherence to, and delivery of the highest level of patient care at all times.
7. To participate in audit systems to monitor the delivery and standards of care given to patients and their families.
8. To have an overall awareness of potential risks within the ward area assessing these at all times (including patient behaviours and working environment) to ensure the health and safety of patients, visitors and staff and compliance with related legislation and guidelines.
9. To have direct involvement in the provision of education and development of pre-registration, appropriate post-registration students and other members of the multidisciplinary team to ensure that appropriate learning opportunities are provided and students feel supported. To participate in the PDPR processes for junior members of the team. Providing mentorship and clinical supervision.
10. To order supplies and supplementary staff ensuring that resources are used appropriately and

efficiently at all times.

11. Ensure patients property and valuables that are received by the ward for safekeeping are secured and processed as NHS Lothian policy (if appropriate).
12. To maintain effective written and verbal communications with patients, relatives and other members of the multidisciplinary team to ensure patient needs are met and appropriate information is shared and documented.
13. To develop within the post by expanding knowledge and skills to ensure continuous professional development and the delivery of evidence-based practice, as per NMC fitness to practice.
14. To support NHS Lothian's values of quality, teamwork, care and compassion, dignity and respect, and openness, honesty and responsibility through the application of appropriate behaviours and attitudes.

7a. EQUIPMENT AND MACHINERY

The postholder will be expected to be responsible and knowledgeable in the safe use of all clinical and non clinical equipment used within the area ensuring this is checked and maintained and where problem are identified these resolved so that all equipment is fit for purpose.

Note: New equipment may be introduced as the organisation and technology develops, however training will be provided.

7b. SYSTEMS

The following are examples of systems which will be used when undertaking the role:

- maintenance of patient records
- for ordering stores and supplies
- Risk assessments
- eLearning modules – personal development
