

Come and join the team at the CAMHS inpatient unit within the Royal Hospital for Children and Young People. We are a 12 bedded unit for adolescents aged between 12-18 years old .

If you are enthusiastic about your work, want to make a difference by supporting young people to develop skills to manage their mental health and are a great team player then you are who we are looking for.

We are looking for a diverse range of people to come and work with our young people who are experiencing mental health difficulties such as Depression, Anxiety, Psychosis and Eating Disorders.

We have lots of opportunities to expand your knowledge base and to help you develop your career path. You do not need to have CAMHS experience, there is nationally recognised training available to you within the unit. Our team are ready to welcome you to our staff group and help you make a difference to the young people who are part of our service.
